

BEST OF BOTH WORLDS

At White Desert, each of the camps reveals a different facet of Antarctica's astonishing beauty — **Whichaway**, with its elegant warmth and dramatic rocky outcrop, and **Echo**, a strikingly futuristic retreat set within a pristine white wilderness where nunatak peaks rise like ancient sentinels from the endless expanse. Guests often ask which to choose. The answer is simple: experience them both. Between these two remarkable bases, you'll also fly to one of the most elusive destinations on Earth: the Geographic South Pole. Standing at 90° South, you become part of a story shared by only a handful of people each year.

Whichaway Camp

The Flagship Luxury Camp

Nestled deep within the glacial landscape of Antarctica, lies a true oasis of luxury and adventure. Whichaway is encircled by an enormous cliff made of iridescent blue ice and features seven cutting edge polar domes with spacious bedrooms that are elegant and warm. When lying in bed, the full length glass doors offer a perfect view, while each room has its own full ensuite facilities. The communal pods are interlinked and invite an atmosphere of relaxed calm. A circular dining room with fur seats gives the impression it has just come from the set of Game of Thrones, while the library and lounge are wonderfully inviting for cocktails or simply reading a book. New to Whichaway this season is a glass Wellness Dome, which provides a place for morning yoga and mindfulness in a warm and comfortable space.
